The Way to United Europe

- **Duration:** 2 years
- **Budget:** 447.149 Euros
- **Aim:** imparting knowledge about key historical, cultural and socio-economic processes which took place in each partner country after WWII and which paved the way to European unification.
- **Partnership:** BG (coord.), BE, FR, DE, IT, LT, RO, ES, SE, UK.
- **Outcomes:**
 - better understanding of how the idea of a united Europe emerged and what the European Union is;
 - the development of a sense of shared European identity;
 - knowledge of individual European cultures;
 - higher educational standards and more opportunities for professional fulfillment for the two target groups;
 - CD-ROM materials with multimedia information on all partner countries;
 - a website;
 - 15 trained adult learners;
 - 15 fully trained specialised teachers.

European Credits Transfer System in LLL

- **Duration:** 2 years
- **Budget:** 331.550 Euros
- **Aim:** facilitating the increased mobility of professional workers across Europe;
 - contributing to the reform of the educational systems;
 - supplementing the existing European and National standards by making a credible reality of interpreting the outcomes of national systems to enable adults to accumulate and transfer credits acquired in different countries;
 - enabling Universities to bring closer the process of acquiring skills and experience to that of giving academic credits for modules based on learning outcomes.
- **Partnership:** RO (coord.), DK, DE, ES, FR, IT, PT, UK
- **Outcomes:**
 - A developed methodology for the recognition of skills and accreditation of prior experiential learning which meets the specified objectives and contributes to the development of a European framework which builds on the achievements of Member States and especially the enhancement of employability through National Employment action plans .
 - A validated set of tools & procedures for 4 professional profile areas (Law, Management of Schools, Nursing and Computer Technology);
 - A scientific evaluation of the process of piloting across the partnership which will form the basis of the final form of the tools and procedures
 - Web-based training resources for an ECTS-LLL network which can support the dissemination and continuing development of the methodology.
 - A final report that comprises the achievements of the project and recommendations for future actions by relevant parties.

Modern Evaluation Tools in Adult Education and Training

- **Duration:** 2 years
- **Budget:** 50.000 Euros
- **Aim:** promoting good practices in adult education evaluation, by designing a modern methodology for the didactic evaluation and assessment in adult education and training.
- **Partnership:** RO (coord.), PT, AT, FR UK
- **Outcomes:**
 - Transnational synthesis-report about the actual situation of the evaluation in adult education.
 - General report concerning the evaluation needs analysis.
 - Evaluation guide for adult education.
 - Evaluation prototypes - instruments.
 - Final form of the evaluation guide and evaluation prototype - instruments.
 - A set of evaluation data and information.
 - A set of evaluation instruments.
 - A collection of brochures destined to the two envisaged directions.
 - Educational products translated into English and French.
 - Training certificates related to new skills in adults evaluation.
 - Workshops, press conferences, seminars.

Community Centres promoting Sustainable Living

- **Duration:** 3 years
- **Budget:** 703.174 Euros
- **Aim:** initiating Community Centres that bring together the synergistic efforts and resources of formal educational institutions, NGOs, local councils and adults to promote sustainable living particularly in marginalized and disadvantaged communities. This will be achieved by exploring specific community needs and by helping community members to design programmes that respond to these requirements.
- **Partnership:** MT (coord.), RO, ES, IT, GR, LV, UK, CY
- **Outcomes:**
 - community centres for ensuring and maintaining a high quality environmental education programme for adults;
 - web site (offering environmental information, facilitating the sharing of ideas, techniques and advice)
 - manual for adult educators based on the features that would have proved successful during the running of the community centres;
 - meetings and round tables to ensure that each partner shares the project's philosophy and is committed towards achieving the same targets.

Adult Learning on Environment Related Themes - II

- **Duration:** 3 years
- **Budget:** 337.473 Euros
- **Aim:** developing adult learning which enables people to understand what sustainable living means, why it is a key concept for the future and how citizens can contribute to and benefit from it (more specifically: developing three areas of study: knowledge and understanding, practical action and advising others).
- **Partnership:** UK, AT, RO, LT, FR
- **Outcomes:**
 - Common materials in 5 languages: European context of environmental sustainability and role of the citizen;
 - Mainly picture/diagram-based practical project descriptions and equivalent written descriptions;
 - An "advice resource" for those who wish to act as mentors in their community;
 - Advice for Users of the materials on how to involve people through a variety of routes;
 - A project website;
 - Exchange between adult learners through which they can contact those in other countries to share experiences.

Peoples and religions

- **Duration:** 1year
- **Budget:** 7328 Euros
- **Aim:** Initiating “Reading Centres” that bring together the synergistic efforts of formal educational Institutions, Associations, local councils, citizens, to promote reflection and exchange of knowledge:
 - analysing the national situation regarding the project topics
 - collecting documents, books, publications, magazines for creating a data base for the Centres to be developed
 - involving other institutions working in AE
 - exchanging experiences and knowledge among the partners
 - developing of qualification programmes for local actors
- **Partnership:** IT (coord.), CZ, RO, PL, UK, HU
- **Outcomes:**
 - Common actions for adult education (seminars, workshops, meetings)
 - Visits, placements and learners' mobility
 - Collection of documents and research
 - Documentation
 - Web site of the project
 - Dissemination activities
 - Establishment of a long-term partnership

Gender Equality Creates Democracy

- **Duration:** 3 years
- **Budget:** 569.623 Euros
- **Aim:** promoting European value on gender equality and democracy through lifelong learning and developing quantitative and qualitative instruments to monitor the application of gender sensitive policies.
- **Partnership:** LT (coord.), FI, UK, RO, CZ, AT, BG.
- **Outcomes:**
 - Report on comparative analysis of the structures of gender equality machinery in the countries involved.
 - Good practice guide on implementation of innovative measures in the partnership countries to promote gender equality through life long learning.
 - Survey report on qualitative and/or quantitative indicators of gender equality/inequality.
 - Curricula and electronic manual on a CD-ROM "Gender equality education for policy and decision makers, adult educators and leaders of NGOs.

Education for Parents – School of Inter-generational Communication

- **Duration:** 2 years
- **Budget:** 280,000 Euros
- **Aim:** creating a program of “School for Parents” that would be helpful in understanding the role and tasks connected to parenthood and that would provide tools necessary to fulfill this function:
 - (1) preventing conflicts between generations within the family;
 - (2) better preparation of young people to living in a family and in the contemporary world;
 - (3) drawing society's attention to the importance of the problem of aware and responsible parenthood in the modern world.
- **Partnership:** PL (coord.), ES, DE, RO, NL, MT
- **Final Outcome:**
 - A detailed programme of school for parents along with all necessary materials (curriculum, methodology, didactic materials for the trainer course)
 - Curriculum & materials translated in national languages
 - Pilot training course for parents.
 - Project's web site
 - Handbook for parents
 - CD for parents

Social and Cultural Associations Development

- **Duration: 2 years**
- **Budget (GIE): 6.605 Euros**
- **Aims:**
 - Diagnosing the social environment (elderly persons) and sharing the group needs;
 - Identifying the national social policies and programs for elderly people and comparing them at European level;
 - Valuing the elderly persons as active citizens to enhance their self-esteem and self-knowledge;
 - Creating conditions for expressing the elderly citizens' knowledge, by inter-generational communication and interactive sharing with other groups inside the community;
 - Providing access to social services by supporting life solutions sustained by self-help solidarity groups;
 - Involving the elderly citizens in the activity of associations and in the community social development process;
- **Partnership: PT (coord.), LT, IT, RO**
- **Outcomes:**
 - Diagnosis of adult learners needs
 - Cultural activities (workshop of plastic arts, group sessions on environment protection, Christmas thematic party, Tulips Symphony, Euro Info Kiosk, Flower Feast)
 - Analysis of the new needs of learning process at local level; Development and reinforcement of local partnership;
 - Training sessions with senior citizens;
 - Participation in Elderly Persons Week in the community;
 - Dissemination materials

Back to School - A Chance for Better Life

- **Duration: 2 years**
- **Budget: 320.000 Euros**
- **Aim:** To provide the adult communities of potential learners with the necessary tools and support to return to the formal educational system and to establish practical ways to re-integrate the target group into the formal educational system.
- **Partnership:** SE (coord.), BE, CZ, ES, PL, RO, TR.
- **Outcomes:**
 - Survey Report: "Actual stage of school abandon in the countries involved"
 - Report upon the Need Analysis & Field Research: "Main obstacles to come back to school. What can be done?"
 - Intensive training course for adult educators and other interested public: "Welcoming them back to school"
 - Good Practice Guide for LLL Trainers, Tutors, HR responsible: "Are they out...? Bring them in...!"
 - Help-kit for the direct beneficiaries: "I do need more school? How can I get it?"
 - Personal development tool: "From <Who am I> to <What I will be>"
 - Open web-based forum: "Back to School"
 - Educational CD-ROM: "Back to school... A new chance for all"
 - Educational web-site - "Back to school... A new chance for all"
 - Dissemination Tools & Outcomes

Culture in Your Region in Informal Learning

- **Duration:** 2 years
- **Budget:** 15.000 Euros
- **Aim:**
 - To contribute to active European citizenship and to share information on various elements of European culture with the aim to prepare both adult educators and learners for the European Year of Culture 2008.
 - To develop and maintain new quality of the active European citizenship based on the awareness of the treasure of the European cultural heritage.
 - To share and exchange within the partnership the most appropriate and efficient learning methods about the European culture.
- **Partnership:** UK (coord.), CZ, IS, LT, RO, ES
- **Outcomes:**
 - Dissemination strategy, tools and products;
 - Project's web site
 - Five transnational meetings, workshops and learning platforms
 - Information booklet on the 5 transnational workshops.

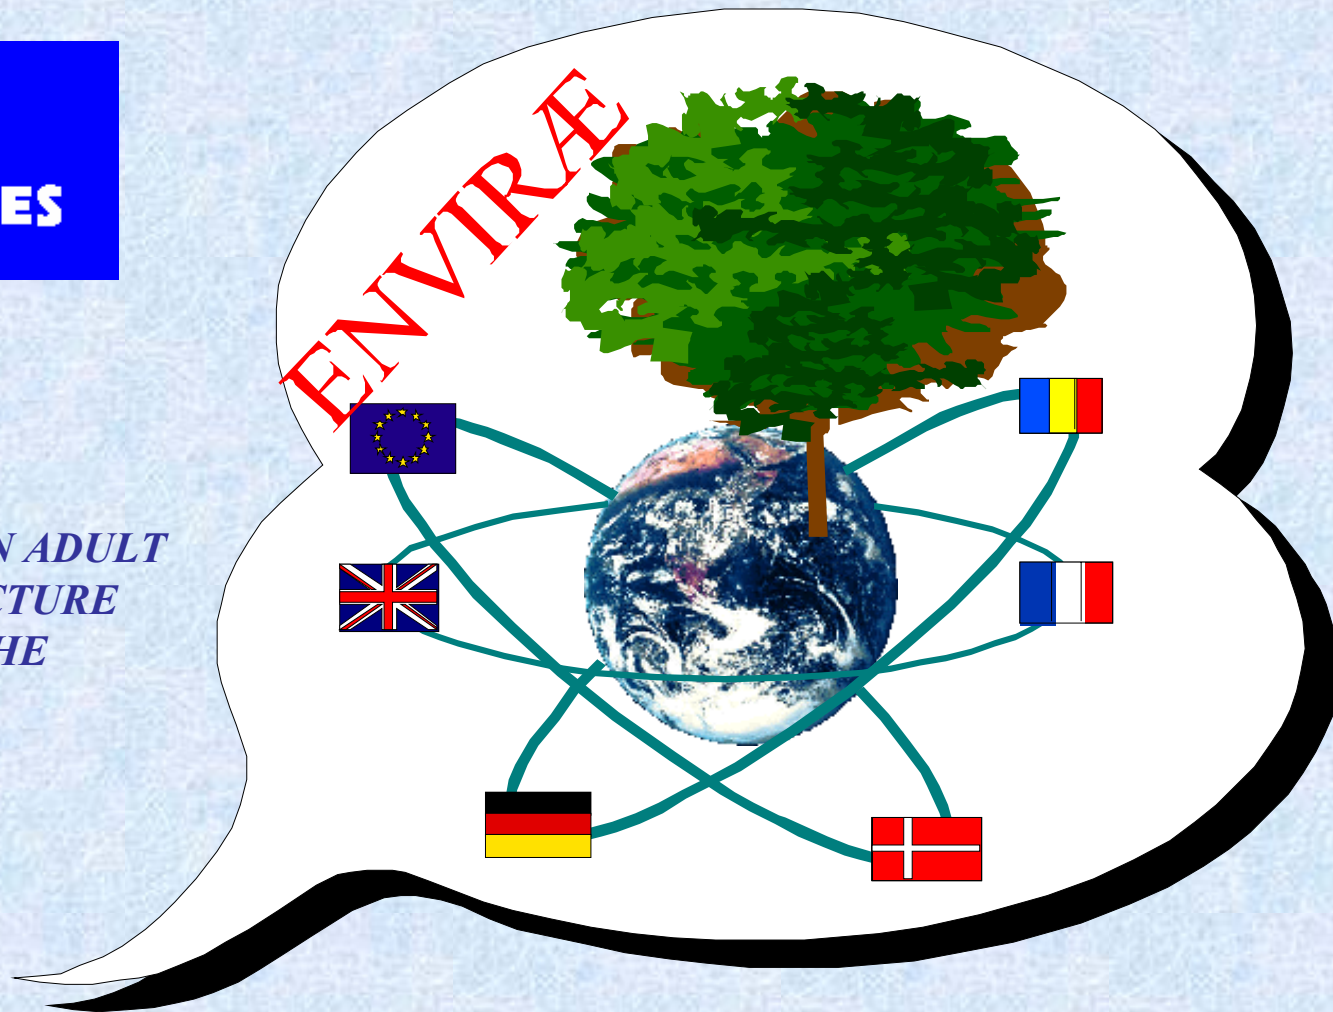

And now the real story of two wonderful projects....

- **Development of an adult educational structure able to promote the protection of the environment [ENVIRAE]**
- **European Pedagogical College in Adult Education and Training [EUPECO]**

Aims...

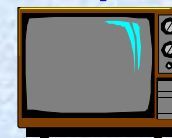

- To make the civil society realizing its prevailing role in the knowledge and in the improvement of the environment protection system;
- To stimulate the adults through educational activities to efficiently turn to good account the existing material base for the protection of the environment;
- To involve the different organizations in community actions meant to protect the environment;
 - To increase awareness of the people in charge (authorities) upon the necessity that the existing legislation has to be applied
- To carry out some information & training materials for adults, regarding the protection of the environment;
- To design a continuously dissemination system for the educational products of the project.

EUPECO

**European Pedagogical College
in Adult Education and Training**

90403-CP-1-2001-RO-GRUNDTVIG-G1

50387-IC-4-2000-1-RO-ERASMUS-EPS-1

Budget:

- **373.227 Euros**

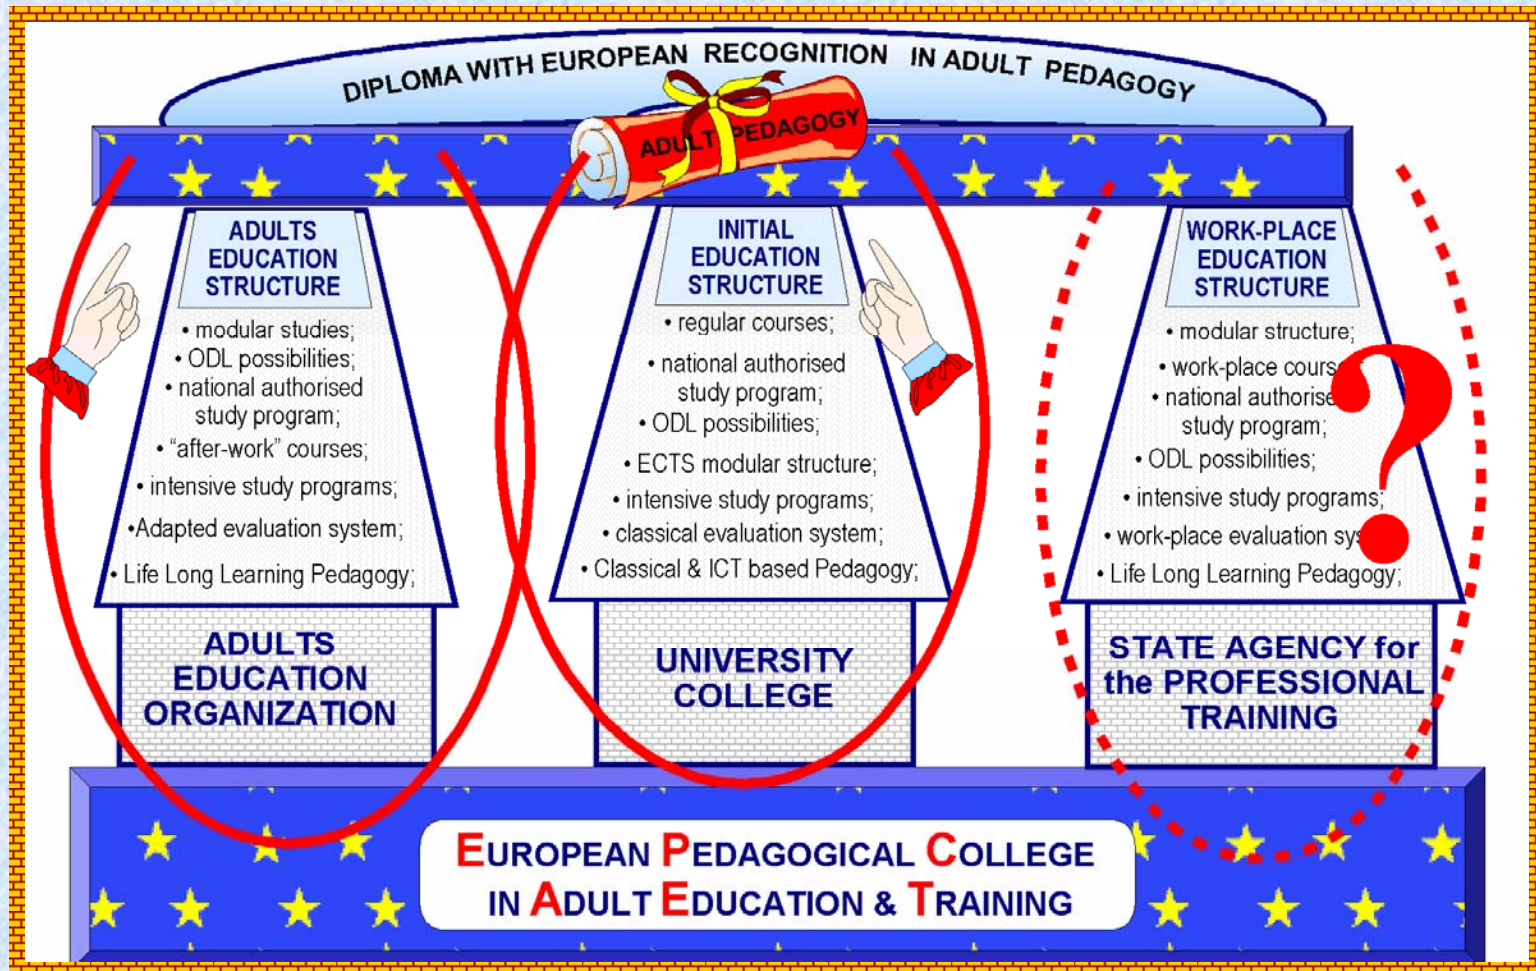

General Aim

To develop an adult education structure which to be able to provide a *Diploma with European Recognition in ADULT Pedagogy*.

- **Why?**

- There are a lot of Adult Education, LLL & VET providers that work with trainers who don't have a solid qualification in ADULT pedagogy.
- In each EU or accession country the general & legal regulations concerning LLL & VET, oblige to a high quality level of the training process that implies an accreditation process. This leads to the necessity of offering a new authorized qualification, meaning the "Adult Pedagogy of the Vocational Education and Training".
- We want to eliminate the discrimination between the young population, which will have the access to this qualification in the formal educational system and the adult population that formally have no such access.

The Building...

How?

- **A formal educational sub - structure, as the central pillar of the basement of our construction, a BACCALAUREATE + 3 years study program (formally named: European Pedagogical College in Life Long Learning), destined to the initial students which intent to work in the field of Adult Education. This structure will be centered into the universities, colleges and high schools participating to this project. We promoted the idea of an initial study program in Adult Pedagogy under the SOCRATES - ERASMUS component, as an ERASUMS PROG project' proposal.**
- **A left pillar, a semi-independent educational structure able to assure a proper high-level qualification in Adult Pedagogy for those who are already working in the field of Adult Education but without having the appropriate skills and knowledge. It's the case of the employees of the adult education providers (adult education agencies, folk schools, popular universities, etc). This structure is the main goal of this project.**
- **The right pillar, destined to a special target group (the trainers that are working as VET trainers in professional organizations), will be developed as a non-formal educational structure, work place based, using the infrastructure and logistic of the VET agencies. This part will be developed in the framework of a mixed dipolar structure "VET agency - formal VET school / university". We promoted the idea of an work place study program in Adult Pedagogy (VET oriented) under the Leonardo da Vinci component, as a pilot project' pre-proposal.**
